

T & T MARKETING, INC.

Distribution to the Wire & Cable Industry

NEW PRODUCT OFFERINGS

AGC

- ECA color concentrates and a 200C rated ETFE (C-88AXMP-HT)

AXIALL

- 16905 - a highly flame retardant PVC tray cable jacket compound for use over PVC or PE insulation and UL 1277 applications with excellent low temperature properties

BOREALIS

- Non-halogen, horizontal FR, moisture curable XL compounds for LV insulation and jacketing
 - FR 4450/LE 4439 natural- bulletinized for UL 44, UL 854 and CSA RW-90 XLPE
 - FR 4450/LE 4433 black- bulletinized for UL 44, UL 854 and CSA RW-90 XLPE SR and RPV 90 XLPE SR Black only

ECC COMPOUNDS

- CableArmor 1750 - thermoplastic, LSZH, flame resistant jacketing compound
- Flexible, moisture curable XL EPR compounds:
 - EP-MC 16 mixed with FMB 5008 and CMB 432 -- UL 44 bulletin
 - EP-MC 4 and EP-MC 2 base resins for even more flexibility
 - FMB 5150 FR/Catalyst masterbatch - 150C applications

HANWHA EVA (ETHYLENE VINYL ACETATE)

- EVA resin grades from 3.5% to 40% VA

HUNTSMAN TPU

- IROGRAN® A78P 4766NM - smooth surface, V-0 flame retardant, low S.G., LOI 29.6%, halogen free
- IROGRAN® A95P 5003 - matte surface, VW-1, 1.25 S.G, 34% LOI, halogen free

Enriching lives through innovation

S&E SPECIALTY POLYMERS

- *TufGuard E* CPE compounds - thermoplastic and e-beam crosslinkable
- *TufFlex* flexible TPE alloys - wide temperature range, oil resistant
- *TufPrene* SEBS and SBS compounds - very flexible at low temperature
- *TufFill* - Non-halogen TPR compounds with up to 49 LOI

T & T MARKETING, INC.

Distribution to the Wire & Cable Industry

NEW PRODUCT OFFERINGS

T & T COMPOUNDS & MASTERBATCHES

- TPE 2650 LSZH - a very low smoke, Non-Halogen Thermoplastic Elastomer with LOI of 50, excellent toxicity and well balanced physical properties
- TPE 5970 LSZH - a very low smoke Non-Halogen TPE with maximum flame retardancy LOI 70 and excellent toxicity
- EXP 5595 LSZH - a very low smoke, zero halogen flame retardant thermoplastic elastomer
 - 125C rated and VW-1, appliance wire, flexible cord and power limited tray cable
- EXP 5187 LSZH - an oil resistant, very low smoke zero halogen flexible flame retardant thermoplastic vulcanizate
- TPE 2575 HFFR - a very flexible, thermoplastic vulcanizate (TPV) compound for flexible wire and cable jacketing applications that can provide cable makers with halogen free VW-1 flame performance
- TT 102 UV - a high performing natural UV masterbatch for polyethylene resins and moisture curable systems

SHANDONG HUAXIA FEP RESIN

- TTFEP 5 - a Fluorinated Ethylene Propylene co-polymer with excellent thermal stability, outstanding inertness, superior electric insulation performance and low coefficient of friction, MI 6.0 to 7.0

UNITAPE® PRODUCTS

- Currently slitting in North Carolina
- Aluminum / PET laminated foil (0.35 mils AL, 0.9 micron PET)
- PET film (1 and 2 mil thick)
- Double sided, 0.2 mm thick, Water Blocking Tape - pads and traverse spools available

T & T also offers materials from the following suppliers:

Innovative elastomeric solutions
from ExxonMobil Chemical
